CALYFORNIA

CALYFORNIA is a Bogotá-based DJ and sonic curator whose project is built around a bouncy, energetic and immersive approach, where the dancefloor becomes the center of the experience.

His sound moves across hardbounce, latincore, techno, trance and dubtechno, crafting sets that are groovy, intense and highly danceable, with a constant focus on rhythm, bounce and flow. A distinct latin sensitivity runs through his selections, shaping a sound that feels both raw and celebratory.

Beyond music, his visual universe explores a spiritual aesthetic pushed into darker territories, dominated by contrast, intensity and emotional charge. This identity extends into his digital presence, where he projects a bohemian lifestyle deeply connected to nightlife culture and artistic exploration.

With over 3 years of experience, he has performed in key venues in Bogotá such as:

Antisistema
Radio Berlín
Before Club
Boro Room

Sharing lineups with international artists including:

Peligre	Aleroj	Gospel	2AT
Gianni Di Bernardo	Nyxx		
Japau	Sai	R2B	
Shogun	XbabyX	Piolinda marcela	
Aklow	Paul Siebzehn		
	Davr		
	Debenjiy		

In parallel, he is the CEO of Capital Club Bogotá, where he not only produces events with international artists but also acts as the curator of its record label, which already counts 5+ releases across digital platforms.

His project stands as a constantly evolving platform where energy, rhythm and identity merge into a powerful and dancefloor-focused experience.
